Professional Picture Framers Association awards merit of excellence to Valerie Becker

The Professional Picture Framers Association has notified Valerie Becker of Red Wing Framing Gallery that she has successfully achieved Certified Picture Framing status (CPF). The CPF designation is awarded through a combination of experience, demonstrated expertise and successful completion of a comprehensive examination that stresses archival framing techniques and museum-level framing standards.

The Professional Picture Framers Association created the CPF program in 1988 to raise the level of industry professionalism, create industry framing standards and to designate excellence within the framing community.

Red Wing Framing Gallery is located in the historic Boxrud Building in downtown Red Wing and specializes in museum-level custom framing, fine-art archival printing and original fine art. Additional information can be located at www.RedWingFraming.com
