The PBS television show Hometime has been broadcasting for 22 years and has taught millions of viewers how to achieve professional looking home-improvement results.

Host Dean Johnson and his crew are a creative group and they are always looking for fresh challenges and new ideas.

Hometime approached Red Wing Framing Gallery last summer with an ambitious project; completely outfit a luxury townhome with 30 gallery-wrapped fine-art prints. The entire project moved from concept, image selection, scanning, printing, stretching and delivery within 4 days. Whew.

See the results for yourself. Hometime episode # 2206, 'Townhome: Finale' is scheduled for broadcast in this area on Saturday, March 15th at 9 am on PBS channel 2.
