(Red Wing, MN)... Red Wing Framing Gallery announces the formation of Red Wing Portrait Studio, a new business direction that compliments both the framing and digital imaging business that Red Wing Framing Gallery already provides.

Red Wing Portrait Studio is a state of the art photography studio with a totally digital and wireless workflow. The business focus will be to provide commercial, family, student and event photography. Instant review and archival digital printing will take place in-house, which allows for very rapid product turn-around.

“This is consistent with our 2004 business growth plans,” said Valerie Becker, President of Red Wing Framing Gallery. “The objective is to grow the business by providing complete image management; from capture, printing, framing, all the way to hanging it on the customer’s wall. This is our second major expansion in the past three years, but the irony is that we are expanding back into our original space.”

Red Wing Framing Gallery (www.redwingframing.com), located in the historic Boxrud Building on Main Street in Downtown Red Wing, specializes in original art, custom framing, fine-art digital printing and studio portrait photography.
